

BEAST 1333

Beast 1333 - Mouth of Madness (Illuminati) lyrics

[Verse 1]

Worshiping Jesus, praising Allah, they praying to Buddha
It's a holy war in the age of computers
Revenge of the Arabs, Castro probably dying in Cuba
His brother through marriage, his destiny is Raul the ruler
The English is with us, North Koreans testing the waters
They sons and they daughters
Are training for American slaughter
The planet is hotter, getting hotter, hotter than lava
If I had a dollar for every time they mention Osama
The wicked are winning, the cunning are coming
They hummin', out gunnin'
The Jews are dropping bombs and they blowing up hundreds
Chavez is tripping, Venezuelan oil conglomerate
Up in Alaska the pipeline is polluting the continent
Hell with the Vatican, Benedictus conflict with f*g�ots is
He don't want them changing or arranging up marriages
Babies in carriages, twisted by domestic disturbances
Urgent emergencies freakin' all your neighbors and urban kids
Hell with they purposes, gasoline is peaking and rocketin'
Is the Arab and Israeli conflict really the problem?
Just look at Obama, he shares an ancestor with Cheney
We living in horror, the television wiling for ratings
I'm tired of waiting, I got a feeling something gon happen
Ain't nobody skating, I dreamed about the splitting of atoms
I really can't fathom the chemicals our food is containing
They grabbing our children
And sticking them up in basic training
It's so entertaining to witness all these millions of people
Just gather together and worship all those symbols of evil
Let's start an upheaval, and gather in our secret societies
There's something primeval inside of me that craves notoriety-
sh** on your blessings

They tortured me in school with they lessons, and sat me in front
of a man, and made me give him confession

This country's oppression's got us going through a recession

Your worldly possessions will all be taken soon with discretion

They k**ing in Burma erasing more than half of they populous

Choppers is drifting across the Gaza strip, and they mockin' us

People are screaming, the gun it bucks and scatters its metal

You know you ain't dreamin', it's just another day in the ghetto

[Verse 2]

Okinawa Hiroshima pulmonary emphysema

Soldiers up in Iwo Jima didn't need no help from FEMA

Chosen men with battle scars, galactic rhyme your battle star

Poison rays that travel days

There's many ways to land on Mars

Now they k**ing us with cars cause they overlook the fumes

Baby food that comes in jars fed to infants causing doom

Hit the lights and leave the room, people running in the street

Armageddon coming soon, microchips control your sleep

Scan your wrist and pay your debts, the sky is full of flying jets

Mixing clouds with chemicals, amazing we ain't dying yet

Every time you wash your hair or brush your teeth you dying

quick. Every time you eat a hunk of steak and take a giant sh**

Every time you feed your kids I bet there are preservatives

And every time their major plan is always trying to murder us

The streets is full of mercenaries waiting for they time to k**

Worshiping the pyramid that's found upon the dollar bill

I hope you understand for real, again I'll never say it

We only have till 2012 before they come in spaceships
